

While we are happy to hold your relatives ashes at our funeral home for up to 6 months, a decision needs to be made after that time.

This brochure outlines the options available and is intended to help make the decision easier for you.

Taking Ashes Overseas

Documentation is required for ashes to pass through Customs, and we are happy to help arrange this for you.

Scattering

Ashes may be scattered anywhere as long as permission is sought from the owners of the land. This includes public areas which will have an authority like the local council managing things. When scattering in the sea, lakes or rivers it is good to have some sensitivity towards others who also have interests, either recreational or cultural. We are happy to help in any way. Bear in mind there will be no tangible evidence remaining.

Ashes Urn

If the ashes are to be retained by the family then we have a range of both wooden and ceramic urns for sale. You are welcome to choose from the display at our funeral home.

If you have any questions on information in this brochure please feel free to contact one of the friendly staff members at The Wilson Funeral Home.
